

Trinity College Dublin

Coláiste na Tríonóide, Baile Átha Cliath

The University of Dublin

Job Description

Comp ID:	037926
Job Title:	Lecturer Registrar in Global Brain Health
School/Department:	Global Brain Health Institute
Job category & level:	Academic Medical

The appointment is offered on a one-year fixed term contract basis. The appointment is available from 14th July 2025.

The Purpose of the Role:

Applications are invited for the above post, which will support the clinical, educational and research activities of the Global Brain Health Institute (GBHI) at Trinity College Dublin and its associated locations.

GBHI works to improve brain health and reduce the scale and impact of dementia worldwide, by training the next generations of Atlantic Fellows in Equity in Brain Health, as well as supporting innovative clinical services and contributing to world-class research (<https://www.gbhi.org/>).

The leads/supervisors for this role are Prof. Iracema Leroi (Geriatric Psychiatry) and Prof. Roman Romero-Ortuno (Geriatric Medicine). The Lecturer Registrar in Global Brain Health will support the leads to develop and clinically contribute to innovative Brain Health clinical services in St James's Hospital, working closely with relevant allied health professionals and other services. In addition, the successful candidate will also organise, coordinate, and deliver the yearly programme of Clinical and Lived Experience (CLE) rotations that the Atlantic Fellows in Equity in Brain Health undertake in St James's Hospital and other clinical sites. The Lecturer registrar will also be expected to contribute to undergraduate and postgraduate course development/delivery, in areas relevant to Brain Health.

The successful applicant will also have the opportunity to engage in research and pursue a part-time postgraduate research degree (e.g. M.D.), where relevant.

The successful candidates must be registered with the Irish Medical Council upon commencement of post and be cleared from a Garda vetting and Occupational health perspective by St James's Hospital. The appointee will receive an honorary clinical appointment (Registrar/Specialist Registrar) in St James's Hospital.

The salary will be in line with current HSE Specialist Registrar Salary Scales <https://healthservice.hse.ie/staff/pay/pay-scales/> €74,228 - €92,415 p.a. The point of the scale (between 1-7) will be determined at the job offer stage according to qualifications and experience.

The exact job plan combining Clinical, Education and Research activities will be agreed with the Leads prior to the job commencing and will be based on the particular strengths and interests of the post-holder.

Main Responsibilities:

Clinical

- Engage in clinical activities with appropriate clinical supervision.
- Tentative work schedule to be developed and agreed with the leads.
- Participation in MDTs/consensus meetings with other clinicians and clinical services.
- Co-working with allied health professionals and other services relevant to brain health.

Education

- Organise, coordinate, and deliver the yearly programme of Clinical and Lived Experience (CLE) rotations that the Atlantic Fellows in Equity in Brain Health undertake in St James's Hospital and other clinical sites.
- Positively contribute to and participate in the Learning Experience of the Atlantic Fellows in Equity in Brain Health in Trinity College Dublin.
- Contribute to undergraduate course development/delivery in Brain Health topics.
- Contribute to postgraduate course development/delivery in Brain Health.
- Contribute to outreach educational/Public Patient Involvement (PPI) activities.
- Engage in monitoring and evaluation activities regarding the Learning Experience of the Atlantic Fellows in Equity in Brain Health.
- Other duties which may arise from time to time in the context of responsibility to Atlantic Fellows in Equity in Brain Health.

Research

- Engage in research activities under mutual agreement. Enrol on a part-time postgraduate research degree programme (e.g. M.D.) where relevant.
-
-

Person Requirements

The role-holder will require the following:

Qualifications:

- A primary medical degree and a medical or health professional qualification – **Essential**
- Registration with the [Irish Medical Council](#) – **Essential**

Qualifications - desirable

- An MD, PhD or other postgraduate qualification related to medical education
- MRCP or equivalent postgraduate qualification
- Has completed basic or higher specialist training in Psychiatry, Neurology, Geriatric Medicine or other Brain Health-relevant specialty

Knowledge and Experience:

- Curriculum development and teaching/lecturing experience
- Experience of using new teaching media and innovative teaching methods

Skills:

- Excellent clinical skills
- Excellent communication and interpersonal skills, and an ability for "clinical bedside" teaching in the hospital environment
- Candidates will undertake a research commitment, therefore previous research experience and associated skills are required
- Ability to work effectively as a member of a team
- Excellent organisational and administrative skills, e.g., ability to set clinical rotations/exams/objective clinical examinations (OSCE), etc.
- A commitment to student/fellow care
- Ability to establish targets and goals to support GBHI and College strategies
- Have good knowledge of GBHI and College
- Career driven, enthusiastic and motivated

Prospective candidates wishing to discuss the post informally should contact:
